E & P Networking Forum, Lagos

Recently, two World Search Group members **Cripps Sears and Partners** of London, UK, and **Michael Stevens Consulting** of Lagos, Nigeria, co-hosted a networking forum consisting mainly of Country Managers and Managing Directors of International Oil Companies (IOCs).

The discussion centered around such topics as constraints on IOCs by National Oil Companies, causes of social unrest in the Delta region, and experiences of investing in social projects in Nigeria. The group found they had similar concerns as well as similar thoughts on how to progress in positive ways.

The opportunity to come together and discuss issues and ideas was appreciated by all in attendance. Another Forum and will be scheduled again for later in the year.
